

The Divisional Commissioner,  
Kashmir.

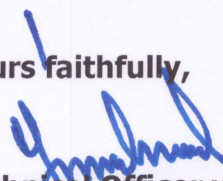

No – CE/IFCK/PS/155-203  
Dt – 13/May/2026

**Subject: - Flood Response Manual for the year 2026-27.**

Sir,

With reference to the subject cited above, kindly find enclosed herewith the "Flood Response Manual" for the year 2026-27 for your kind perusal and necessary action at your end, please.

Yours faithfully,

  
Technical Officer with  
Chief Engineer

Encl – A/A

**Copy for information to:**

1. All Deputy Commissioners for favour of information.
2. All Superintending Engineers (Civil/Mechanical) for information
3. All Executive Engineers (Civil/Mechanical) for information.
4. P.S to the Financial Commissioner (ACS), Jal Shakti, Department, for favor of kind information of the Financial Commissioner (ACS'), Jal Shakti Department.
5. P.S to the Principal Secretary, Disaster Management, Relief, Rehabilitation & Reconstruction Department, for favour of kind information of the Principal Secretary, Disaster Management, Relief, Rehabilitation & Reconstruction Department.

- 2. Hydrological data of Jhelum Basin**
- 3. Flood Early Warning System**
- 4. Framework of the Flood Committees**
- 5. Duties to be performed by the Flood Committees**
- 6. Annexure**

# 1. Introduction

Flooding is a natural process but it can have devastating consequences for people and property. Kashmir is no exception to floods; floods have occurred at regular intervals in the past like 1903, 1905, 1909, 1928, 1948, 1950, 1951, 1953, 1954, 1956, 1957, 1959, 1962, 1963, 1964, 1969, 1972, 1973, 1976, 1986, 1992, 1995, 1996, 2006, 2014 & 2025.

The valley of Kashmir is a bowl-shaped low-level basin surrounded by high mountains and hills in all sides. It is believed that it was basically a large lake called "SATISAR". As a result of geomorphological transformations, the huge lake got drained out through Baramulla and gave birth to a series of low-level water bodies, rakhs and wet lands with only one central drainage channel known as River Jhelum, which is a part of Indus River system.

It has been recognized that, while floods cannot be prevented, they can certainly be managed to minimize loss of lives, livelihood systems, property and damage to infrastructure and public utilities. Various measures for management of floods will ultimately lead to reduction in vulnerability to floods. Sustained efforts are required to address the problem to reduce the impact of floods in the short term and flood risk in the medium and the long term.

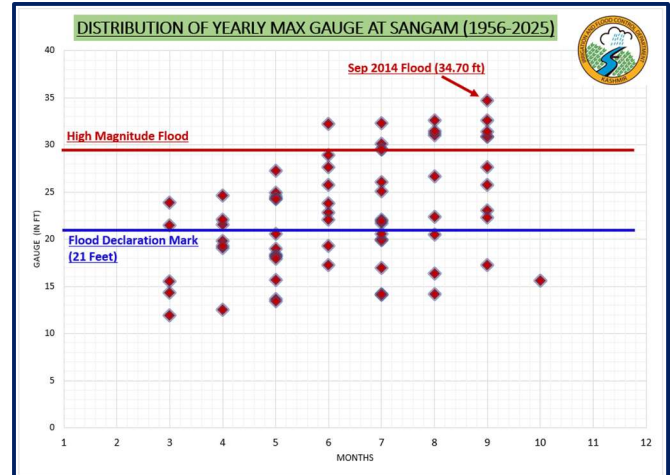

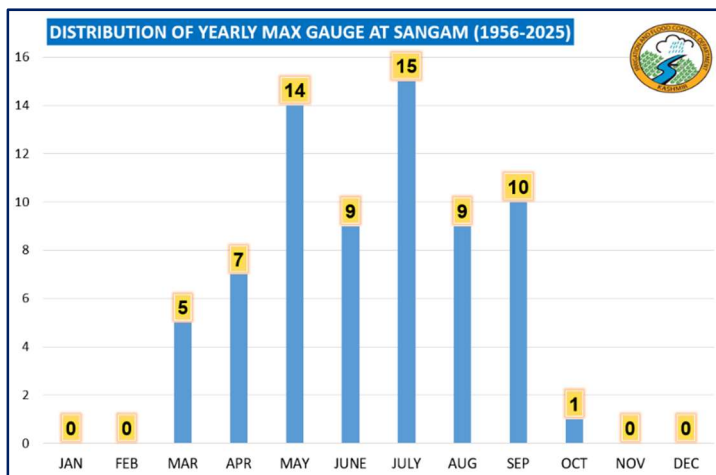

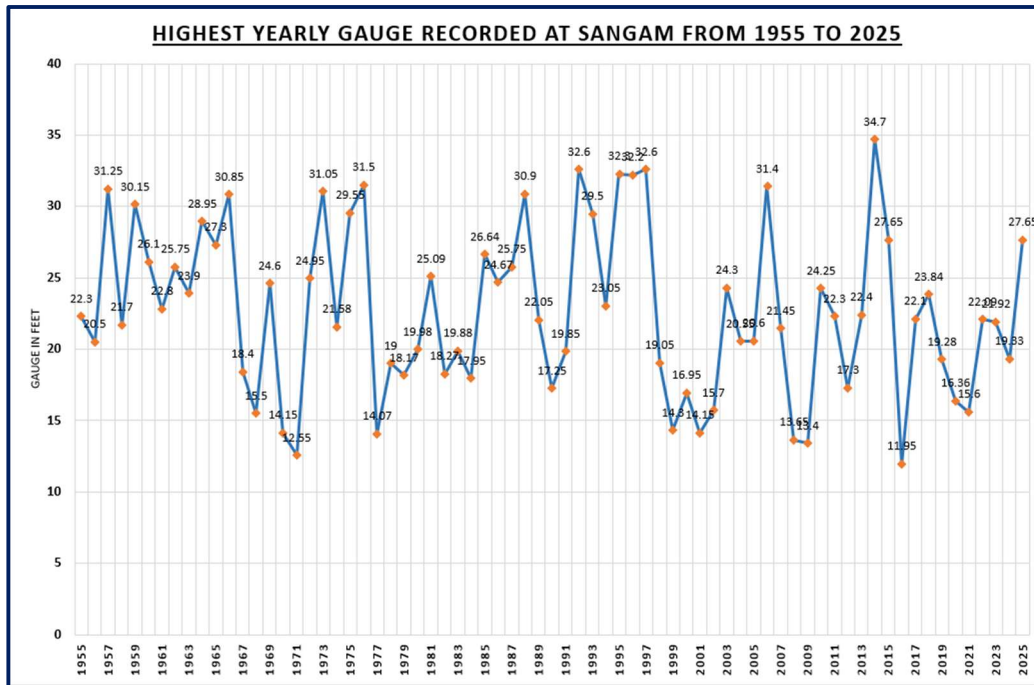

The purpose of the Flood Response Manual is to ensure the constant vigil, prompted response and proper coordination to mitigation any extreme weather event resulting in a flood like situation. The Flood forecasting and warning play an important role in the process and the Decision Support System (DSS) is the final operational aspect of it.

## 2. Hydrological data of Jhelum Basin

### General information

The evaluation of the yearly maximum water level data of Sangam Gauge site from 1957 to 2023, suggests that the high magnitude flood take place during the months of June to September.

The maximum gauge data recorded since 2014 is as under:

| <b>Highest gauge since 2014 in feet</b> |                          |              |                |              |
|-----------------------------------------|--------------------------|--------------|----------------|--------------|
| S.No                                    | Date                     | Sangam       | Ram Munshibagh | Asham        |
| 1                                       | <b>Sept 02-06, 2014</b>  | <b>34.7</b>  | <b>29.5</b>    | <b>18.33</b> |
| 2                                       | March 29-31, 2015        | 22.55        | 19.7           | 12.75        |
| 3                                       | April 20-22, 2015        | 21.3         | 19.1           | 12.75        |
| 4                                       | <b>June 24-26, 2015</b>  | <b>27.20</b> | <b>21.65</b>   | <b>14.5</b>  |
| 5                                       | July 12-15, 2015         | 22.6         | 19.4           | 13.16        |
| 6                                       | Sept. 22-24, 2015        | 22.4         | 20.05          | 11.5         |
| 7                                       | April 06-08, 2017        | 22.1         | 20.2           | 12.83        |
| 8                                       | June 29 to July 01, 2018 | 23.84        | 20.96          | 13.25        |
| 9                                       | June 22-23, 2022         | 22.09        | 19.77          | 12.62        |
| 10                                      | July 08-10, 2023         | 21.92        | 19.61          | 13.07        |
| 11                                      | April 29-30, 2024        | 19.33        | 18.25          | 11.79        |
| 12                                      | Aug 27-28, 2025          | 24.18        | 21.10          | 12.73        |
| <b>13</b>                               | <b>Sep 02-03, 2025</b>   | <b>27.65</b> | <b>22.41</b>   | <b>14.03</b> |

## 3. Flood Early Warning System

---

### 3.1. Methodology of Flood Early Warning System

The Methodology of the Flood Early Warning System being followed is as under:

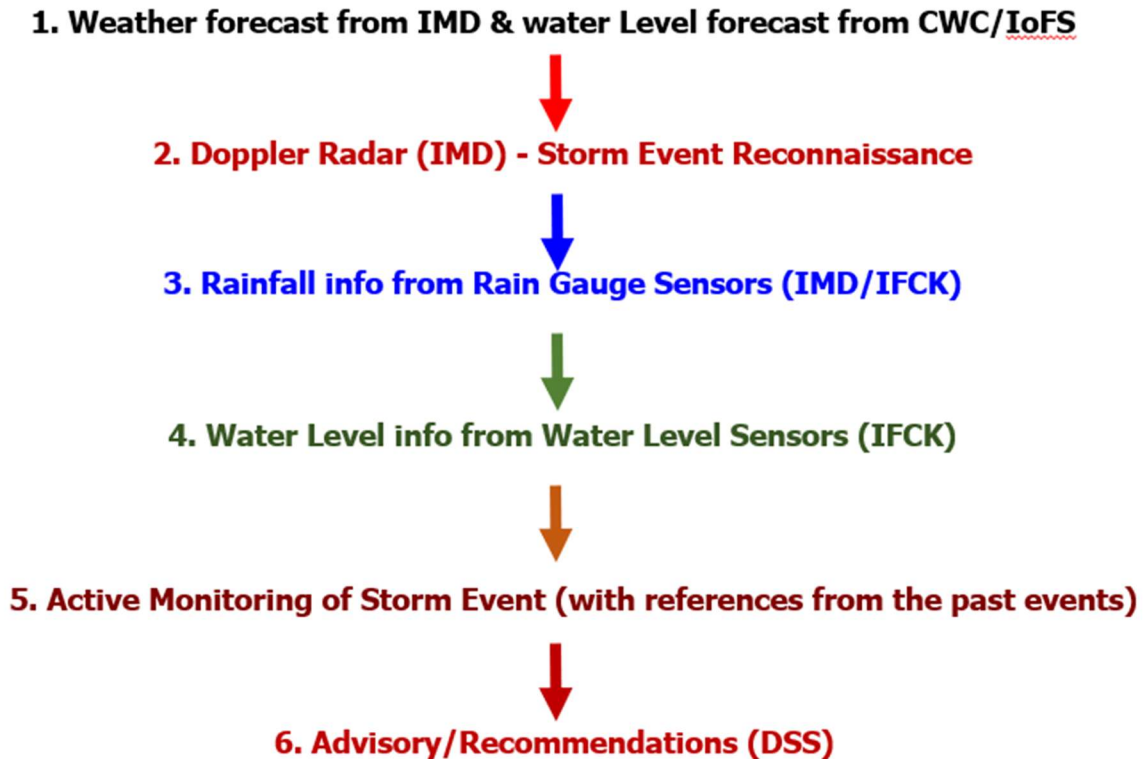

1. The forecast issued by the India Meteorological Department (IMD) shall serve as the initial trigger in the process. In the event that the forecasted storm is of significant magnitude and the forecasted water levels issued by the Central Water Commission (CWC) and IOFS indicate a probable surge in water levels across water bodies, appropriate advisories shall, after due evaluation, be issued to the administration and the general public.
2. Upon the commencement of the storm event, continuous monitoring of the Doppler Radar data of IMD shall be ensured. Based on the observed behavior and progression of the storm event, necessary actions and advisories shall be initiated accordingly.
3. The quantification and verification of the storm event shall be carried out using data obtained from the Automatic Rainfall Sensors installed across the Jhelum Basin.
4. As water levels respond to rainfall in the upper catchment areas, continuous monitoring of the trend in water levels shall be ensured through automatic and manual gauge recordings. In the event of any abnormal rise in water levels at any monitoring station, appropriate advisories and necessary actions shall be initiated promptly.
5. Continuous monitoring of all vulnerable areas shall be ensured, and reports relating to any damage to flood management infrastructure shall be assessed and evaluated without delay.
6. Based on reports of damage to flood management infrastructure, the prevailing trend in water levels, and the forecasted weather conditions, if it is assessed that the flood may not be manageable in a region, evacuation warnings for the affected region shall be issued. In the event

that the Central Business District of Srinagar is assessed to be at risk of flooding, all necessary preventive measures shall be undertaken.

## Flow Chart - Flood Early Warning System

### 3.2. Sounding of Alarm

As and when the water level in River Jhelum at Sangam Gauge reaches the 21-feet mark and/or at Ram Munshibagh reaches the 18-feet mark, the Central Flood Committee, through the Member Secretary/Chief Engineer, Irrigation & Flood Control (I&FC) Kashmir, shall formally declare the flood situation. The declaration shall be communicated immediately to all District Headquarters and the Engineering Wings of the respective Zonal Committees.

Upon receipt of the flood declaration, all concerned officials and staff shall immediately report to their respective headquarters and assume charge of their

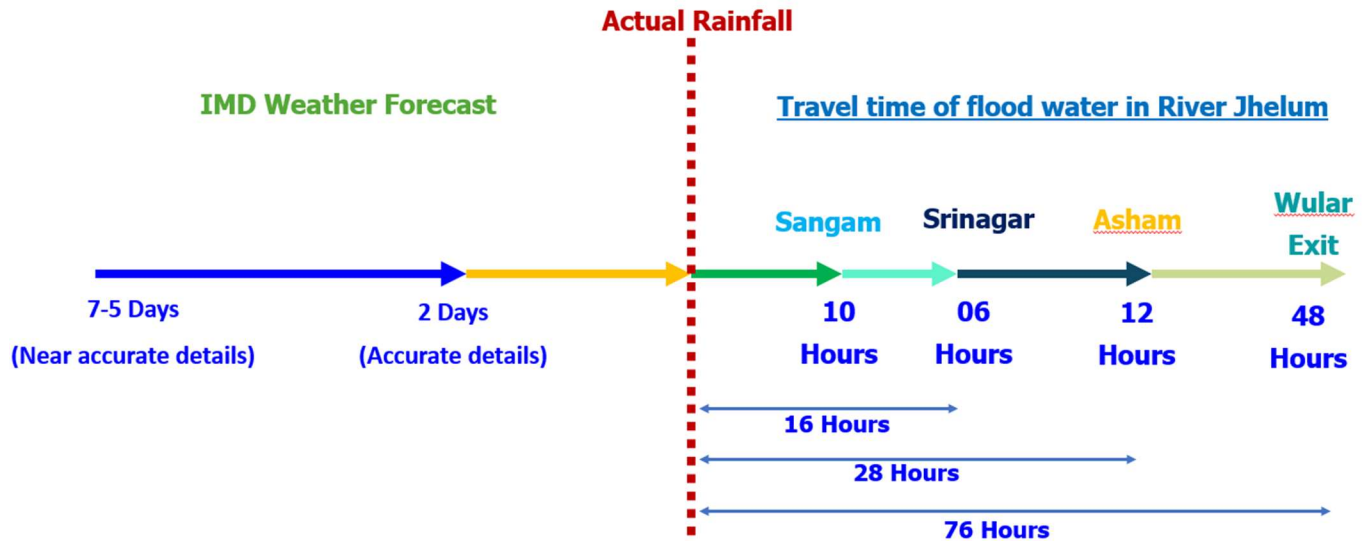

assigned duties in accordance with the flood duty roster issued by the Member Secretary of the Flood Zonal Committees.

- a) Flood duty in the districts of Anantnag and Pulwama shall commence when the water level in River Jhelum at the Sangam Gauge site reaches the 21-feet.
- b) Flood duty in Srinagar and Budgam shall commence when the water level in River Jhelum at the Ram Munshibagh Gauge site reaches the flood declaration level of 18 feet.
- c) Flood duty in Sumbal and Sonawari shall commence when the water level at the Asham Gauge reaches 14 feet. However, in case the water level in Wular Lake is already high, the flood duty may be initiated at a lower gauge level in consultation with the Central Flood Committee.
- d) For other areas, including the districts of Baramulla, Kupwara, Ganderbal, and Bandipora, flood duty shall commence as and when deemed necessary by the respective Member Secretaries (Executive Engineers, I&FC) of the District Coordination Committees/Zonal Committees and can issue necessary advisories to the district administration/general public. The concerned authorities may further seek approval from the respective Deputy Commissioners for undertaking restoration and rectification of flood-inflicted damages under the SDRF provisions.
- e) In the event that water levels in any tributary (of River Jhelum), other than those referred to in clause (d) above, cross the prescribed warning levels, the concerned Executive Engineers shall notify the commencement of flood duty, as and when deemed necessary, within their respective zones/catchments. The concerned authorities may also seek approval from the respective Deputy Commissioners for restoration and rectification of flood-inflicted damages under the SDRF provisions.
- f)** Notwithstanding anything contained above, in the event of any adverse weather forecast, the Chief Engineer, Irrigation & Flood Control Department, Kashmir, may, based on his assessment, initiate flood duty,

mobilize flood mitigation and preparedness measures, or issue evacuation warnings for any region or zone as deemed necessary.

### Mechanism of Early Warning for Floods

| Gauge Site     | <i>Flood Alarm<br/>(Flood duty for I&amp;FCDK only)</i> | <b>Flood Declaration<br/>(Warning Level)</b> | Danger Level | Overflow | Districts impacted   |
|----------------|---------------------------------------------------------|----------------------------------------------|--------------|----------|----------------------|
| Sangam         | 18.0 ft                                                 | <b>21.0 ft</b>                               | 25 ft        | 28 ft    | Anantnag, Pulwama    |
| Ram MunshiBagh | 16.0 ft                                                 | <b>18.0 ft</b>                               | 21 ft        | 25.5 ft  | Srinagar             |
| Asham          | 13.5 ft                                                 | <b>14.0 ft</b>                               | 16.5 ft      | 19 ft    | Bandipora (Sonawari) |

## 4. Framework of the Flood Committees

---

In accordance with Order No. 36-DMRRR of 2017 dated 01 June 2017, issued by the Disaster Management, Relief, Rehabilitation & Reconstruction Department, the following committees shall function as the designated authorities responsible for planning and coordinating flood response measures during flood situations:

- i. The Central Flood Committee, chaired by the Divisional Commissioner, Kashmir.*
- ii. The District Coordination Committees, chaired by the respective Deputy Commissioners.*
- iii. The Zonal Flood Committees, chaired by the respective Executive Engineers of the Irrigation & Flood Control (I&FC) Department, Kashmir.*

The primary objective of these committees shall be to minimize the impact of floods and to ensure the effective implementation of relief, rescue, and response operations during flood situations, so that the life and property of the public are safeguarded to the maximum possible extent and adequate support is provided to the affected population.

During flood situations, the roles, responsibilities, and composition of these flood response committees shall be as under.

### 4.1. Central Flood Committee

The Central Flood Committee, under the chairmanship of the Divisional Commissioner, Kashmir, shall be the apex authority responsible for overseeing and coordinating all flood response measures, including relief and rescue operations in the Kashmir Valley, both before and after flood events. The Committee shall be assisted by ten (10) District Coordination Committees, each headed by the respective Deputy Commissioner concerned.

The Committee shall ensure that all necessary measures are undertaken to effectively respond to any flood-related eventuality, with the objective of

maintaining complete coordination between the civil administration and the engineering staff.

The role and responsibilities of the law enforcement agencies in coordinating and supporting the flood response mechanism shall also be determined by the Central Flood Committee and communicated to the respective District Coordination Committees for implementation.

#### **4.2. District Coordination Committees:**

The District Coordination Committees, with designated headquarters in the respective districts, shall function under the convenorship of the District Development Commissioner, while the Superintending Engineer, Hydraulic Circle, shall serve as the Member Secretary.

The District Coordination Committees, constituted in accordance with the approved duty chart, shall ensure close coordination and liaison between the engineering and administrative wings within the district for the effective implementation of flood response measures and, where necessary, the conduct of relief and rescue operations.

For the discharge of these responsibilities, the District Coordination Committees shall be assisted by the respective Flood Zonal Committees constituted within the district.

##### **4.2.1. Administrative Wing**

The Administrative Wing of the District Coordination Committee shall provide overall supervision during flood situations and, where required, shall augment the Irrigation & Flood Control (I&FC) Department with additional manpower and machinery for flood mitigation measures. The Committee shall also maintain close coordination and liaison with the Central Flood Control Committee. In addition, the Administrative Wing shall ensure that all contingency plans relating to relief, rescue, and emergency response operations within its jurisdiction are kept in

readiness, particularly in situations where the flood event is assessed to be unmanageable or of an extreme nature.

#### **4.2.2. Engineering Wing**

The Engineering Wing shall function under the technical supervision of the Engineering Members of the District Coordination Committee and shall be responsible for ensuring that all required flood response measures are adequately planned, implemented, and kept in readiness.

### **4.3. Flood Zonal Committees**

The Flood Zonal Committees, headed by the Superintending Engineer or Executive Engineer of the Irrigation & Flood Control Department, Kashmir (I&FC), with designated headquarters at the respective zones, shall function with the assistance of Sector Officers assigned to clearly defined jurisdictions.

These Sector Officers shall maintain close coordination and continuous liaison with the Flood Zonal Committees to ensure that all flood response measures are implemented effectively, efficiently, and in a timely manner within their respective sectors. The Flood Zonal Committee are 14 in number as under:

- 1. Flood Zonal Committee Anantnag*
- 2. Flood Zonal Committee Kulgam*
- 3. Flood Zonal Committee Shopain*
- 4. Flood Zonal Committee Awantipora*
- 5. Flood Zonal Committee Kakapora*
- 6. Flood Zonal Committee Srinagar*
- 7. Flood Zonal Committee Ganderbal*
- 8. Flood Zonal Committee Budgam*
- 9. Flood Zonal Committee Narbal*
- 10. Flood Zonal Committee Bandipora*
- 11. Flood Zonal Committee Baramulla*
- 12. Flood Zonal Committee Sopore*

### *13. Flood Zonal Committee Kupwara*

### *14. Flood Zonal Committee Handwara*

The Flood Zonal Committee shall keep the respective District Coordination Committees informed of the developing flood situation. This shall be based on information collected through the Sector Officers in the district, regarding the activities being undertaken in connection with flood response measures.

#### **4.3.1. Sector Officers**

The Sector Officers, who shall be of the rank of Executive Engineers or equivalent officers from other departments, shall be responsible for monitoring the functioning of various beats falling under their respective sectors through regular physical inspection and patrolling of the assigned jurisdiction.

The Sector Officers shall maintain close coordination with the Beat Officers by frequently visiting and inspecting the respective areas/beats within their sectors to ensure effective implementation of flood response measures.

They shall maintain a complete and accurate record of materials issued, lifted, and consumed across the various beats, and shall ensure that all unused articles and stores are duly returned after the conclusion of flood duty. A detailed report, including accounts of consumed items, shall be submitted to the Member Secretary.

The entire jurisdiction under the Flood Zonal Committees shall be systematically divided into sectors, with details of sector headquarters provided in the Annexure.

Furthermore, the Sector Officers shall verify the accounts submitted by Beat Officers, along with their observations, remarks, and recommendations. A coordination mechanism shall be established linking Sector Officers with Beat Officers and the Administrative Wing at the initial stage itself, so as to avoid communication gaps that may hinder

smooth operations. This mechanism shall also ensure timely transmission of field-level information to higher authorities.

#### **4.3.2. Beat Officers**

The Beat Officers, who shall be of the rank of Assistant Executive Engineer, shall ensure the proper mobilization and preparedness of staff for maintaining continuous vigilance over the jurisdiction assigned to each beat. They shall be responsible for ensuring that all flood response measures within their respective beats are executed smoothly, efficiently, and in a coordinated manner.

## 5. Duties to be performed by Flood Committees

---

### 5.1. Central Flood Committee

The Member Secretary of the Central Flood Committee, i.e., the Chief Engineer, Irrigation & Flood Control Department (I&FCD), Kashmir, shall ensure that flood duty is declared through both electronic and print media. The Member Secretary shall also make necessary arrangements for convening a meeting of the Central Flood Committee without delay.

The Central Flood Committee shall immediately convene upon the water level in River Jhelum at the Sangam Gauge reaching the flood declaration mark of 21 feet. The Committee shall review the availability and adequacy of men and material, assess the prevailing situation, and examine the preparedness and stock position of essential materials required for flood response measures.

In addition, the Member Secretary shall establish communication with the District Coordination Committees to ensure that the flood response machinery is activated promptly and effectively. The Central Flood Store shall be made operational on a round-the-clock basis.

**However, in the event that the India Meteorological Department (IMD) issues a forecast indicating a probable extreme weather event, the Committee shall initiate preparatory measures at the earliest stage, without waiting for the actual rise in water levels.**

### 5.2. District Co-ordinations Committee:

The District Coordination Committee, through the Member Secretary of the Flood Zonal Committee (Executive Engineer, I&FC), shall ensure that the flood response machinery is fully operational. It shall further ensure that all Sector Officers have reported for duty and have established their respective headquarters in accordance with the approved duty chart.

A key objective shall be to establish and maintain effective communication linkages between Sector Officers, the District Coordination Committee, and Beat Officers, so as to bridge any gaps between the administrative setup and field-level execution.

The jurisdiction of the District Coordination Committee shall correspond to that of the respective Zonal Committee, including its defined sectors and beats.

The District Coordination Committee shall continuously monitor the latest developments and ensure that necessary flood response, relief, and rescue measures are undertaken based on reports received from the Flood Zonal Committee. It shall also keep the Central Flood Committee regularly apprised of the ground situation and ongoing activities.

### **5.3. Flood Zonal Committee**

The Flood Zonal Committee shall have jurisdiction over River Jhelum and all its tributaries falling within its respective territorial limits. The Committee shall function in two shifts: the day shift from 8:00 AM to 8:00 PM and the night shift from 8:00 PM to 8:00 AM, to ensure continuous monitoring and response.

The Flood Zonal Committee shall supervise and monitor the functioning of all designated Sector Officers and Beat Officers deployed within its jurisdiction. It shall further ensure the following:

- a. That all staff members have duly reported to their designated locations in accordance with the approved duty chart.
- b. That all flood response materials and arrangements, including crates, empty cement (EC) bags, geo bags, sand, manpower, and machinery, are adequately deployed and in place.
- c. That continuous and active monitoring of flood mitigation infrastructure is maintained, along with constant surveillance of flood discharge levels in all water bodies within the jurisdiction.
- d. That in the event it is assessed that flood discharge at any location has become unmanageable, the matter shall be immediately communicated to

the Central Flood Committee and the District Coordination Committee, so that necessary evacuation measures from the affected location can be initiated without delay.

#### **5.4. Sector Officers**

After establishment of headquarters as per the prescribed duty chart, the staff deployed at the headquarters shall ensure that all Beat Officers have duly reported for duty.

The Sector Officers shall play a pivotal role in establishing an effective communication system, ensuring the arrangement and timely deployment of stores and materials, and obtaining regular feedback from the respective beats. They shall also be responsible for communicating ongoing activities and ground situations to the District Coordination Committee.

The Sector Officers shall maintain close liaison with the concerned Police Stations to ensure coordinated field response. They shall exercise supervisory control over the execution of flood response measures within their respective sectors, including the deployment and management of manpower and machinery required for operations.

Further, the Camp Clerk and two Orderlies attached to the concerned Executive Engineer shall remain on duty with the Sector Officer and assist in maintaining proper records of all flood mitigation operations undertaken within the sector. The Sector Officers shall report for flood duty along with the necessary vehicles assigned to them to ensure immediate operational readiness.

#### **5.5. Beat Officers**

The Beat Officers shall report for duty along with their complete technical and administrative staff, including a minimum of three Junior Engineers, SDC, and Orderly staff, and shall establish a functional unit at the designated headquarters.

The Beat Officers shall prepare and implement a shift-wise roster at their own level to ensure continuous vigilance across the entire jurisdiction of the beat, ensuring that no area remains unattended at any point in time.

They shall ensure the execution of flood response measures with active participation of the local public wherever feasible, or otherwise in consultation with the Sector Officers, depending upon prevailing field conditions.

All up-to-date field information shall be promptly communicated to the Sector Officers for onward transmission to higher authorities. In emergent situations, Beat Officers shall make all necessary arrangements for protection works and other mitigation measures in close coordination with the Sector Officers.

The Beat Officers shall also ensure timely lifting and positioning of flood stores and other essential materials so that no operational difficulty is faced during emergency conditions.

Once the flood alarm is activated within the established hierarchy of Flood Committees, the Beat Officers, along with their staff, shall immediately report to their respective beats and shall ensure the following:

- a) Closing of gates and sluices on Nallahs and rivers through the already deputed staff as per the requirement.
- b) Collection of flood response equipment (Tools & Plants) from the Central Flood Stores in consultation with sector officers against proper indent who shall make adequate arrangements with regard to the transportation of materials.
- c) Regular patrolling of River/Nallah/canal embankments within the assigned jurisdiction.
- d) Clearance of choked drains/culverts through concerned departments at a short notice.
- e) Strengthening of weak spots detected anywhere.
- f) Closure of breaches at an earliest.

- g) Preparation of contingency plans/suggestions in advance and sharing the same with District Co-ordination Committee through concerned sector officer so that timely action is taken after ensuring adequate arrangements in this regard.
- h) Keeping the locals aware of the trends of water levels and creation of awareness in light of the updated weather forecast/upper catchment rainfall trends so that public is ready to respond to any eventuality.
- i) Discouraging of rumors which generally create panic amongst the masses (local public address system can be availed in this regard).
- j) Assessment of damages of public utility services (roughly) and transmitting the same to concerned.
- k) A complete liaison and understanding between the various wings of flood response machinery.
- l) Recording of High Flood Level mark on permanent objects in the jurisdiction assigned.
- m) The officers/officials designated for flood duty will not leave until they hand over their charge to their successors as per duty roster. In case their reliever comes late they should lodge a complaint with Member Secretary Central Flood Committee i.e., Chief Engineer, I&FC Department Kashmir, through District Co-ordination Committee.
- n) The beat officers shall submit the detailed accounts to sector officers and obtain utilization certificate of the consumed material and the material returned to stores after flood duty is called off.
- o) Any sort of special requirement (feedback) for efficient combating of flood disaster shall be brought to the notice of District co-ordination committee through concerned sector officers of that proper rectification measures are adopted.

### **5.6. After Flood Duties**

Each Sector Officer shall submit a detailed report pertaining to his/her sector to the Member Secretary of the Flood Zonal Committee. The Member Secretary shall, after due verification, forward the same to the Secretary of the District Coordination Committee.

The District Coordination Committee shall compile and consolidate all reports received from the respective sectors within the district and shall submit a comprehensive report/note, along with full details and descriptions, to the Chief Engineer, Irrigation & Flood Control Department, Kashmir, within one week of the withdrawal of flood duty.

The Sector Officers shall also ensure the timely return of all unused articles, stores, and materials to the Zonal Headquarters after the conclusion of flood operations.

### **5.7. Monitoring of Hydro-Meteorological Parameters:**

The Assistant Executive Engineer, P&D Data Collection Sub-Division, Srinagar, shall be responsible for continuous monitoring of hydro-meteorological parameters across the Jhelum Basin throughout the year. The roles and responsibilities of the concerned AEE, P&D shall include the following:

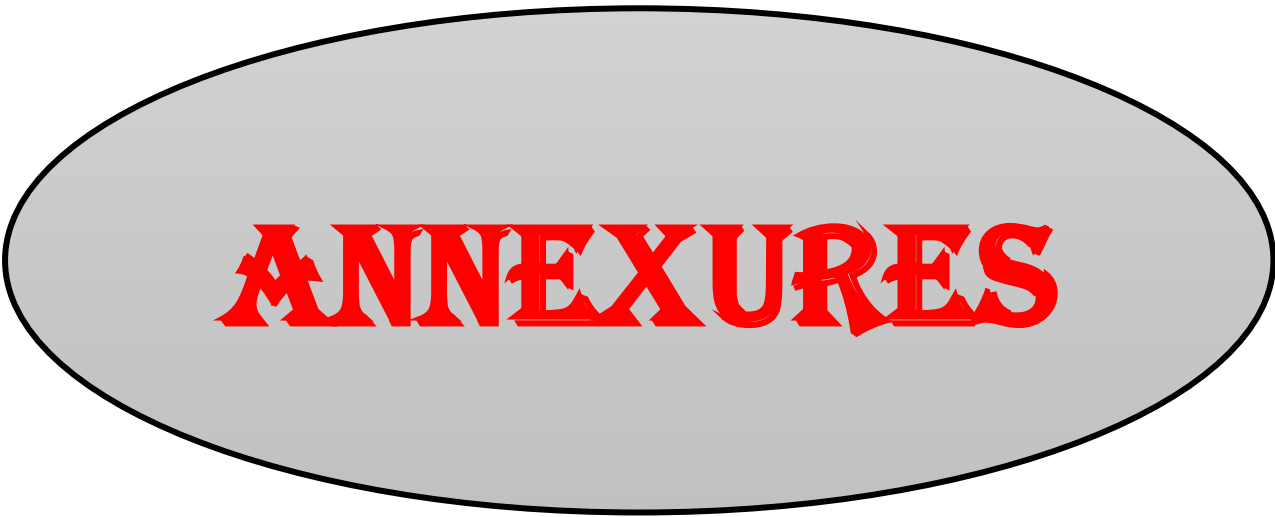

1. Continuous monitoring of hydro-meteorological parameters of the Jhelum Basin on a round-the-year basis.
2. Regular and uninterrupted monitoring of all Automatic Rainfall and Water Level Sensors installed within the basin.
3. Maintaining close liaison with the India Meteorological Department (IMD) for real-time weather updates, and timely communication of any anticipated adverse weather events to the Chief Engineer's Office and the concerned Superintending Engineers and Executive Engineers.
4. Monitoring, analysis, and dissemination of information received through IOFS and related forecasting systems.

5. Continuous monitoring of the “Kashmir Flood Watch” web portal and mobile application for updated hydrological and meteorological information.
6. Timely dissemination of critical information through official WhatsApp groups and other approved social media platforms.

In carrying out these responsibilities, the technical section of the Chief Engineer’s Office shall extend full support to the concerned AEE to ensure seamless flow of information to both the administration and the public.

**ANNEXURES**

**Government of Jammu and Kashmir**

**Civil Secretariat, Srinagar/Jammu**

**Subject: Effective flood mitigation measures.**

Government Order No: 36 -DMRRR of 2017

Dated: 01.06.217

\*\*\*

Sanction is hereby accorded to constitution of the following committee to ensure effective flood mitigation, in Kashmir Division:

- |                                             |                  |
|---------------------------------------------|------------------|
| i. Divisional Commissioner Kashmir          | Chairman         |
| ii. Inspector General of Police, Kashmir    | Member           |
| iii. Deputy Commissioner Srinagar           | Member           |
| iv. Chief Engineer I&FC Kashmir             | Member Secretary |
| v. Chief Engineer R&B Kashmir               | Member           |
| vi. Chief Engineer MED Kashmir              | Member           |
| vii. Commissioner, SMC                      | Member           |
| viii. Managing Director J&K SRTC            | Member           |
| ix. Commandant SDRF 1 <sup>st</sup> Bn      | Member           |
| x. Director, Meteorological Centre Srinagar | Member           |
| xi. Deputy Controller Civil Defence         | Member           |
2. Divisional Commissioner Kashmir may co-opt any other officer, as may be deemed necessary.
3. In the event of any impending flood, the resources available with any department e.g. SMC, MED, R&B, MED, SDRF, Police, Civil Defence etc., (including manpower and machinery) may be pooled together, commandeered and redeployed, for flood duty, on the instructions of the Divisional Commissioner, Kashmir.
4. Chief Engineer, Irrigation and Flood Control (I&FC) Department shall ensure that a dedicated Central Flood Control Room is set up at Srinagar, equipped with landlines, broadband, fax and wireless communication network. Duty roster of staff be notified for manning the Flood Control Room on 24x7 basis.
5. Areas vulnerable to floods shall be identified and mapped by the Irrigation & Flood Control Deptt. The vulnerable areas shall be divided into Zones. Each Zone headed by a Zonal Magistrate, to be nominated by the concerned Deputy Commissioner.
6. The constitution of the Zonal Committees shall comprise of:
- |                                                                    |             |
|--------------------------------------------------------------------|-------------|
| (i) Zonal Magistrate.                                              | Chairman    |
| (ii) Engineer from I&FC.                                           | Member Secy |
| (iii) Engineer from R&B.                                           | Member      |
| (iv) Municipal Ward Officer (assisted by municipal staff).         | Member      |
| (v) I/c Police Station.                                            | Member      |
| (vi) Numberdar/Chowkidar/Sarpanch/ Panch (whichever is applicable) | Members     |
| (vii) I/c SDRF component.                                          | Member      |
| (viii) Civil Defence, Home Guards, Community Volunteers/Local NGO. | Members     |

7. Adequate boats shall be requisitioned by the concerned Deputy Commissioner, and pre-positioned at Police Stations. These boats shall be utilised on the demand of the Zonal Magistrates. The Zonal teams shall be responsible for the rescue operations, within their area.
8. Labours and pick-up vans/tippers etc. shall be pooled from various departments, equipped with tools and filled-up sand-bags and kept attached with each team, for immediate response.
9. Zonal Magistrate shall ensure that safety measures are taken and if required, the vulnerable population shall be shifted to safer locations/relief camps.
10. Concerned Deputy Commissioner shall identify rescue/relief shelters and pre-position relief material and medical facilities at these Centres.
11. Each Zonal team shall conduct mock drills, to test their preparedness.

By Order of the Government of Jammu and Kashmir.
