In case he fails to do so it shall be presumed that he is not interested in executed the said work further course of action as warranted under rules shall be taken by this office.
22. The Employer shall not be held liable for any delays due to system failure beyond its control. Even though the system will attempt to notify the bidders of any bid updates, The Employer shall not be liable for any information not received by the bidder. It is the bidders' responsibility to verify the latest information related to this bid.
23. All duties, taxes and other levies payable by the contractor under the contract shall be included in the total price.
24. The bidder is advised to visit the site of works at his own expense and obtain all information that may be necessary for preparing the bid. Each bidder shall submit only one bid. Bidders should not contact or collude with other competing bidders in matters relating to this bid.

25. The e-procurement system provides for online clarifications. Clarifications requested through any other mode shall not be considered by the Employer. Response of the Employer including a description of the inquiry, but without identifying its source, shall be uploaded on the e-procurement portal for information of all Bidders. It is the bidder's responsibility to check on the e-procurement portal, for any clarifications or amendments to the bidding documents.
26. To qualify for award of contract bidder should not have been debarred (or dealings suspended) on the dates of bid opening by the Central/State Governments/undertakings.
27. Information relating to evaluation of bids and recommendations for the award of contract shall not be disclosed to bidders or any other persons not officially concerned with the process until the award to the successful bidder is announced.
28. The Employer will award the contract to the bidder whose bid has been determined to be substantially responsive and who has offered the lowest evaluated bid price and who meets the specified qualification criteria.
29. Notwithstanding the above, the Employer reserves the right to accept or reject any bids and to cancel the bidding process and reject all bids at any time prior to the award of contract.
30. The "Defects Liability Period" for the work is six months from the date of taking over possession after completion of work. During this period, the contractor will be responsible for rectifying any defects in construction free of cost to the Employer.
31. Supply of all construction materials including cement and steel as per the specifications (ISI certification marked goods wherever available) shall be the responsibility of the contractor.
32. The Employer may terminate the Contract if the other party causes a fundamental breach of the Contract. Fundamental breaches of Contract include, but shall not be limited to the following
 - i. The contractor stops work and the stoppage has not been authorized by the Engineer;
 - ii. The Engineer gives Notice that failure to correct a particular Defect is a fundamental breach of Contract and the Contractor fails to correct it within a reasonable period of time determined by the Engineer;
 - iii. The Contractor has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices, in competing for or in executing the Contract.
33. If the Contract is terminated, the Contractor shall stop work immediately, make the Site safe and secure and leave the Site as soon as reasonably possible.
34. If over the works, any dispute arises between the two parties, relating to any aspects of this Agreement, the parties shall first attempt to settle the dispute through mutual and amicable consultation.
35. In the event of agreement not being reached, the matter will be referred for arbitration by a Sole Arbitrator not below the level of retired Chief Engineer / Superintending Engineer, (not connected in part or whole with this Project in his service) to be appointed by the first party. The Arbitration will be conducted in accordance with the Arbitration and Conciliation Act, 1996. The decision of the Arbitrator shall be final and binding on both the parties.
36. The Contractor preferably will use unskilled/semi-skilled labour from the surrounding area to give the maximum benefit to the local community whenever this is possible.
37. The Contractor will construct and maintain all labour accommodation in such a fashion that uncontaminated clean water is available for drinking, cooking, bathing and washing.
38. Fans and proper ventilation (turbine type ventilators) will be provided in labour accommodation.
39. Workers will be provided with beds and no worker will be allowed to sleep on the ground.
40. Necessary HIV/AIDS prevention measures will be put into place and awareness programs at least once in a quarter shall be organized.
41. Though no tree cutting or vegetation removal is required for the construction of the works, the Contractor shall take precautions to avoid damage to trees and vegetation in the off-site areas of operation.
42. The Contractor shall ensure that civil work and related activities such as clearing and grubbing, stacking of materials and debris disposal are carried out in a manner that avoids water logging.
43. The waste water from construction zone and/or camp sites should not be disposed into nearby water bodies or in a manner that causes a possibility of water logging.
44. The Contractor shall procure material from quarries/crushers/ borrow areas that have been approved /licensed by the State Govt. A copy of such an approval and/or consents from the concerned authority shall be submitted to the Engineer prior to procuring and using the material. Sand shall be procured from approved sources and vendors.
45. The Contractor will make sure that during the construction work all relevant provisions of the Building and Other Construction Workers (Regulation of Employment and Conditions of Services) Act, 1996 are adhered to. The Contractor will comply with all the precautions as required for ensuring the safety of the workmen as per country's labour regulations and International Labour Organization (ILO) Convention No. 62 as far as those are applicable to this contract.
46. All measures required for ensuring safety and health of the workers shall be taken up by the Contractor. This includes provision and enforcement on use of appropriate personal protective equipment; precautions to be taken during Building Demolition, first aid facilities at camp, plant site and work zones; emergency response arrangements; proper storage of hazardous/ toxic and/or polluting materials; measures for ensuring electrical, fire and mechanical safety arrangements.
47. The Contractor shall provide and ensure enforcement with zero tolerance the following:
 - i. Hard hat or helmets to all workers, supervising staff and inspecting official entering work site, plant area, and engaged in loading/ unloading/demolition operations.
 - ii. During reinforcement/fabrication operation, helmets, protective eye wear, gum boots and hand gloves shall be provided to labour/workers at the construction site.
 - iii. Safety vests will be used by workers when on the construction site.

- iv. Protective footwear, protective goggles and nose masks (as required) will be provided to the workers employed. These shall be provided to all workers employed for handling of cement, mortar, concrete and similar dust generating operations shall be provided.
- v. Welder's protective eye-shields will be provided to workers who are engaged in welding works.
- vi. Earplugs will be provided to the workers exposed to high noise levels.
- vii. Nettings below and on the sides of overhead construction to prevent mishaps due to accidental fall of a workman, tool and/or debris shall be provided.
- viii. Proper moving guards will be provided at all moving machines, like motors and pulleys.
48. The Contractor will make required arrangements so that in case of any mishap in the construction site, all necessary steps can be taken for prompt first aid treatment.
49. The Contractor will arrange for Readily available first aid box including an adequate supply of sterilized dressing materials and appliances as per rules shall be provided in all work zones
50. All supervisory staff shall be provided with mobile phones for better communication across all operational areas, in case of emergency or otherwise.
51. All precautionary measures for prevention of pollution on account of the construction work (including both on-site and off areas) shall be implemented as per the requirements/standards of CPCB, SPCB and in line with measures listed in this EMP.
52. Contractor will chose/select a material source after assessment of the availability of sufficient materials, quality and compliance to environmental regulatory requirements
53. Vehicles, equipment and machinery for construction will confirm to relevant Bureau of Indian Standard (BIS)/CPCB standards.
54. Contractor will ensure that all vehicles, equipment and machinery used for construction work are regularly maintained and in good working condition. The Contractor will submit PUC certificates for all vehicles/equipment/ machinery used for the project.
55. All precautionary measures vis a vis ensuring adherence to the guidelines related to Air pollution, water pollution, Noise Pollution and disposal of debris & waste shall be taken by the contractor.
56. After the completion of works and prior to handing over for usage, the site has to be cleaned and all waste materials/debris has to be removed and disposed at pre-approved designated locations/sites. The clean-up and restoration operation has to be implemented by the Contractor prior to demobilization.
57. Every Bidder has to disclose the bank account No. which is linked to their GSTIN at the time of bid submission. No payments shall be released to any other bank account except that one linked with the GST No. of the successful bidder.
58. Nothing shall be paid on account of dewatering/diversion, close timbering & extraction of roots , cutting of trees etc
